LOUDSPEAKER

The SQ systems are expanded with the new **HX406 SQ EVO3** and the **HX406 SQ EM EVO3**. Two special speaker systems with a lot of potential.

AUDIO SYSTEM is the first manufacturer to offer the sound-oriented music lover two 4x6 special speaker systems. The two HX406 systems differ in the crossovers, the EM (EASY MOUNTING) has 2x cable crossovers for the high and midrange instead of the FWX EVO2. Both HIGH END speaker systems have the same chassis. The HS25 EVO2 tweeter impresses with its velvety and elegant sound. The EX406 SQ EVO3 midrange driver plays a pleasant, warm and extremely linear sound. Two that complement each other perfectly!

Power:

2x 90 WRMS

Impedance:

3 Ohm

Consisting of:

2x EX406 SQ EVO3

2x HS25 EVO2

2x FWX EVO2 bzw.

2x FWK TW EVO /
