## SUBWOOFER

The HX speaker series is expanding with the new EVO woofers in a new design.

The sizes 200, 250 and 300mm are available: **HX08 EVO**, **HX10 EVO** and **HX12 EVO**. All 3 versions offer breathtaking performance, dynamics and depth. The successful Thiele-Small parameters allow the user to use different housing variants.

**AUDIO SYSTEM** has new housings in its range: G08 EVO, G010 EVO, G12 EVO, BR08 EVO, BR10 EVO, BR12 EVO, BR10-2 EVO, BR12-2 EVO, G10-2 EVO and G12-2 EVO.

All HX EVO woofers are equipped with a 2x 2 Ohm Kapton voice coil, attractive die-cast basket, highly stable paper cone/dust cap and push terminals. Thanks to the double voice coil, the HX basses can be used very variably, for example with the MD 4-channel power amplifiers.

### Power(WRMS):

2x 150 WRMS

2x 200 WRMS

2x 250 WRMS

### Impedance:

2 Ohm + 2 Ohm

### Frequency Response:

25-150 Hz

### Price:

200,-€

275,-€

300,-€
