## AMPLIFIER

since 1988  
**AUDIO**  
SYSTEM  
german sound

**CARBON-250.4** is the name of the 4-channel successor in the **CARBON** amplifier range..

The analog Class A/B high-performance amplifier also has a high-level level input with automatic switch-on and switchable low and high-pass filters. The connection socket for an **RTC** (remote control, **optional**) and cinch outputs for an additional power amplifier (e.g. **CARBON-500.1 D**) have been newly integrated.

The **CARBON 250. 4** power amplifier is characterized by more power and dynamics. A clear sound improvement could be realized thanks to our **AUDIO SYSTEM** engineers on top.

### Power:

4x 62,5 WRMS @ 4 Ohm  
4x 105 WRMS @ 2 Ohm  
2x 210 WRMS @ 4 Ohm

### Size:

280x51x176 mm

### Filter:

LPF: 50-4000 Hz  
HPF: 50-4000 Hz

**Price: 185,-€**

## CARBON-250.4

More **CARBON** AMPLIFIER

**CARBON-500.1 D**

**Power:**  
1x 350 WRMS @ 4 Ohm  
1x 500 WRMS @ 2 Ohm  
**Size:**  
200x51x176 mm  
**Filter:**  
LPF: 30-150 Hz  
HPF: 10-50 Hz  
**Price: 200,-€ inclusive RTC**

**CARBON-130.2**

**Power:**  
2x 65 WRMS @ 4 Ohm  
2x 130 WRMS @ 2 Ohm  
1x 260 WRMS @ 4 Ohm  
**Size:**  
200x51x176 mm  
**Filter:**  
LPF: 30-300 Hz  
HPF: 30-300 Hz  
**Price: 130,-€**
